

Choose This

Sintered Stone

- Low-to-no silica
- 100% minerals
- Etch-proof
- stain proof
- heat and frost- resistant
- Through-body veining

Blue and White Insulation

- Wool or Recycled Denim materials
- No harmful chemicals
- Safer to work with
- Can be reused

Cork Flooring

- Sustainably harvested material
- Thermal comfort
- Acoustic qualities
- Hypoallergenic

Modern Solid Surface

- High recycled content
- 100% recyclable
- USA Made
- Colorful and customizable

Organic Surfacing

- 100% organic material
- Olfactory comfort
- Biophilic
- Variety of backings for different applications
- Ability to customize

Not That

Granite

- Yellows over time
- High silica content
- Susceptible to cracking in extreme heat or cold
- Mimicking the look of marble

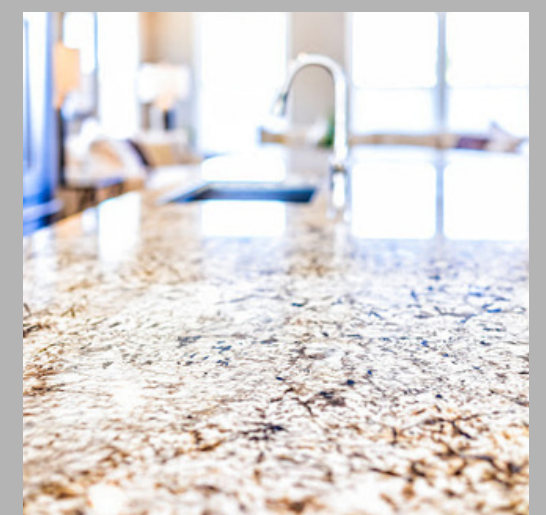

Pink Insulation

- Filled with fiberglass
- Laden with formaldehyde, a known human toxicant
- Can cause irritation to eyes, skin and lungs

Laminate Flooring

- Worn surfaces cannot be refinished
- Susceptible to moisture damage
- Hard and noisy surface
- Chemicals may be present

Traditional Solid Surface

- Limited color palette
- Low to no recycled content
- Ends up in landfills at end-of-life

Traditional Wallpaper

- Messy to install
- Unable to reuse
- Difficult to maintain
- May be effected by light and shadow

About CaraGreen

CaraGreen LLC, headquartered in Raleigh, North Carolina, distributes eco-friendly products as healthier alternatives to conventional building materials. CaraGreen matches the needs of architects, designers and builders, identifying and supplying beautiful and technically advanced products that help mitigate adverse effects on people and the environment. Projects range from residential kitchens to corporate environments and hospitality. Products include surfacing materials, acoustic solutions, insulation and exterior cladding. CaraGreen focuses on educating the design and building communities to increase awareness of products that contribute to creating healthier spaces. The Company offers a variety of brands and environmentally-friendly solutions.
